Junior Infants Resources and Book List 2021/2022

There are two sections in the Resources and Book List:

1. Workbooks, copybooks and resources purchased by the parents. These are books that will be written into by your child during the school year and used by your child only.
2. Items purchased by the school. By bulk-buying these items, we can get better prices on these items. We can also ensure that every child has the same brand, size and quality of item. This includes expendable items that will be used just this year such as paper and paint and also includes items that can be used for years to come such as PE resources and books for our book rental scheme - books that are not written into, can be used by numerous children, in various classes and over a number of years. In this section, we focus on different areas of school life each year.

Please see attached for lists under each of the two areas.

Further expenses expected during the school year are as follows - these amounts are not due now but you are advised to budget for them for later in the school year:

- School tour (3rd term), approximately €16
- Fundraising initiatives and small trips throughout the year, generally €2-5 each - dependent on future government recommendations

Section 1 - Workbooks, copies and resources to be purchased by parents (Please do not cover or label these books until your child's teacher has confirmed that they have the right ones):

Operation Maths A Junior Infants Pack
